

## OUR PRINCIPLES

- 1.** Love will always be the prime mover in everything we do since without Love all our projects and our initiatives will not have the same strength and efficiency. Without Love they will not last long;
- 2.** Our projects and initiatives will be available to any sufferer, without any discrimination based on race, gender, place of origin, religious or political beliefs;
- 3.** Children will always receive special care and attention;
- 4.** In giving our help to those in need, we will not forget to do it with a smile. Besides, we will always talk to everyone with great kindness;
- 5.** It does not matter if those who receive our help do not thank us, we will still help them. It does not matter if those who receive our help criticize us, we will still help them. The only thing that matters to us is to improve their lives or relieve their sufferings;
- 6.** We will not accept any money from people, or companies, who are involved in illegal matters or made their earnings on activities which caused damage or suffering to others. We do not want our projects and initiatives to be poisoned or linked with evil's nature;
- 7.** We will never interfere, in any way whatsoever, in the culture, politics or traditions of the places or communities where we will work and we will always listen to every opinion, since our projects will always be shared with everyone;
- 8.** In taking forward our plans and our activities, we will always avoid, by all means, wasting time since one second lost means more suffering for other human beings.
